

# all about mood brewers

## Product Overview

Our THC-infused nano beverage is a refreshing and innovative way to enjoy the benefits of cannabis. Crafted using cutting-edge nano-enhanced extracts and the finest fresh fruit, this beverage offers a low-dose, customizable experience designed for comfort and sociability. Our product combines subtle effects, low sugar content, and a hint of carbonation to create a truly enjoyable and unique social experience.

### Key Features:

- Nano-enhanced THC extracts for faster onset and controlled effects.
- Made exclusively with fresh fruit for natural and vibrant flavors.
- Low-dose formulation to ensure a comfortable and social boost.
- Lightly carbonated for a refreshing and effervescent sensation.
- Dosing guide on can to help consumers navigate their own experience.

### Benefits:

- Enhanced Social Interaction: Designed to promote comfortable social experiences, making it ideal for gatherings, events, and casual hangouts.
- Natural Ingredients: Crafted with only fresh fruit, ensuring a delicious and authentic taste.
- Controlled Effects: Nano-enhanced extracts offer faster onset and more precise control over the effects, helping users avoid overconsumption.
- Customizable Experience: Each individual can adjust their dosage to match their desired level of relaxation and euphoria.
- Low Sugar Content: A healthier alternative to traditional sugary beverages.

### Usage

- Chill the beverage and consume it like any other drink.
- Start with a low dose and wait for the effects before deciding whether to consume more.
- Individual preferences may vary, so adjust dosage accordingly for the desired experience.

## Legality and Compliance Overview

Our THC-infused nano beverage contains delta-9 tetrahydrocannabinol (THC) derived from hemp. It's important to note that the legal status of delta-9 THC varies by jurisdiction and is subject to local and federal laws. Our product is crafted and marketed in accordance with the applicable legal regulations and guidelines to ensure a safe and responsible consumption experience. Delta-9 THC is a psychoactive compound found in cannabis plants, including hemp. While delta-9 THC is known for its psychoactive effects, hemp-derived delta-9 THC is subject to specific legal thresholds that distinguish it from marijuana-derived delta-9 THC. In the United States, the Agricultural Improvement Act of 2018, also known as the 2018 Farm Bill, legalized the cultivation and production of hemp and its derivatives, including delta-9 THC, as long as the delta-9 THC content does not exceed 0.3% on a dry weight basis. Our THC-infused nano beverage is carefully formulated to meet the legal requirements for delta-9 THC content set forth by the 2018 Farm Bill. This ensures that our product falls within the legal definition of hemp-derived products and is compliant with federal regulations.

**Third-Party Testing:** To ensure compliance and quality, our product undergoes rigorous third-party testing by accredited laboratories. These tests verify that the delta-9 THC content in our beverage remains below the legal threshold of 0.3%, confirming its status as a hemp-derived product.

**Consumer Awareness:** We are committed to providing accurate and transparent information to our customers about the delta-9 THC content in our product. Our packaging includes clear labeling that indicates the hemp-derived nature of the delta-9 THC and emphasizes responsible use.

**Legal Updates:** Please note that the legal landscape surrounding hemp-derived products, including delta-9 THC, may evolve over time. We stay informed about any changes to laws and regulations and adjust our practices accordingly to continue providing a legally compliant and safe product.
